Engineering Rigor Meets Product Strategy

Data-driven MBA Candidate with 2 years of product experience. Specialized in using technical instrumentation and A/B testing to transform raw data into actionable product insights.

Actionable Insights

Transforming raw data through A/B testing.

Technical Instrumentation

Leveraging engineering background for precise data tracking.

Full-Cycle Development

Executing complex API integrations and delivering scalable solutions.

The Technical Toolkit

Product Management

The Workflow

-  Jira
-  Confluence
-  Asana
-  Azure DevOps
-  Agile
-  Scrum
-  Kanban
-  Figma
-  Lucid Chart

Analytics & Engineering

The Code

-  SQL
-  Python
-  HTML/CSS
-  Excel VBA
-  Tableau
-  Amplitude
-  Power BI
-  Adobe Analytics
-  Google Analytics
-  Zendesk

Certifications

The Verification

- ✓ Bloomberg Market Concepts
- ✓ IBM Enterprise Design
- ✓ BCG Strategy Consulting
- ✓ Notion Certified

400%

Increase in Account Creation Speed

40% Reduction in Banker
Escalations

Scaling FinTech Operations | Rocket Mortgage

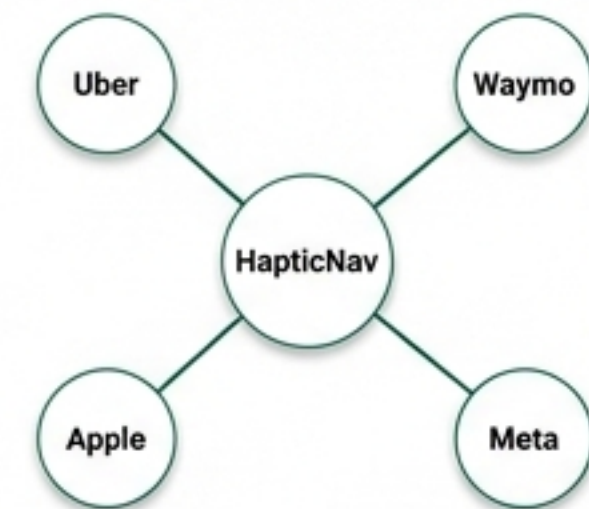

Digital Product Management Intern (Detroit, MI)

- **Situation:** Led the end-to-end integration of the Plaid API to modernize onboarding.
- **Action:** Coordinated cross-functional engineering and design teams; supported AI-powered chatbot integration and side-by-side home comparison features.
- **Result:** 30% boost in verification accuracy, 40% reduction in banker escalations, and 25% elevation in form completion.

Accelerating B2B Growth | HapticNav

Operations Intern (New York, NY)

60%

Acceleration in
Partnership Pipelines

Situation: Tasked with expanding B2B presence in **rideshare** and **venue navigation** sectors.

Action: Led outreach to **Uber, Waymo, Apple, and Meta**. Managed **40+ CRM-tracked** conversations and supported 12 executive-level strategy calls.

Result: Enabled 3 active pilot discussions; designed high-impact product one-pagers for enterprise use cases (Airports, Large Venues).

Ensuring Product Integrity | Odynn

Product/Data Analyst Intern (New York, NY)

Situation: Identifying instrumentation gaps and feature instability.

Action: Executed QA testing across 50+ features; built Amplitude dashboards for 150+ user events using SQL to validate staging vs. prod data.

Result: Closed 40+ instrumentation gaps and enhanced product risk visibility by 15% through competitive analysis of 25+ platforms.

20%

Increase in Booking
Flow Reliability

Data-Backed Product Discovery | MegaPlants LLC

Product Development Intern (Kosha Botanica)

Situation: Filtering 200+ conceptual candidates down to winners.

Action: Analyzed Google Trends, Google Analytics, and TikTok trend signals. Evaluated 300+ Amazon SKUs via Jungle Scout.

Result: Prioritized 3 high-potential tincture concepts and led the development of 2 new wellness product lines, supporting a 25% catalog expansion.

90%

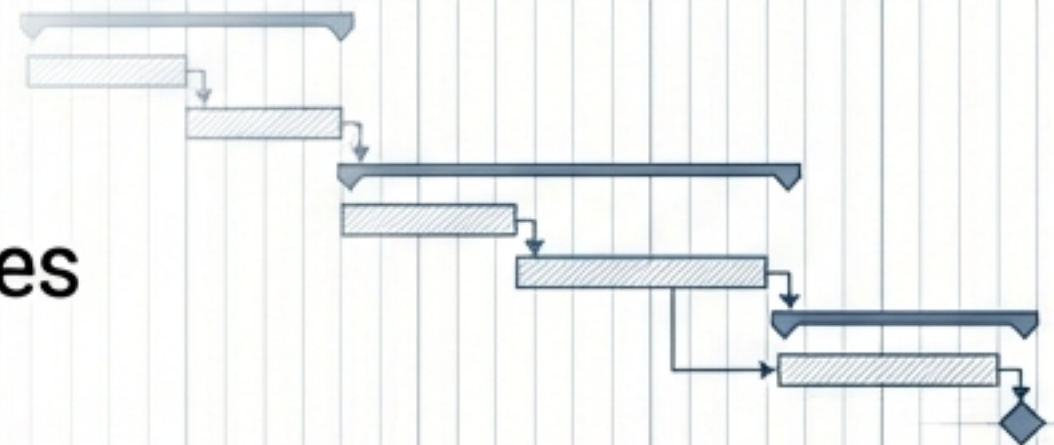

Improved Selection
Efficiency

The Engineering Foundation

Where the discipline comes from.

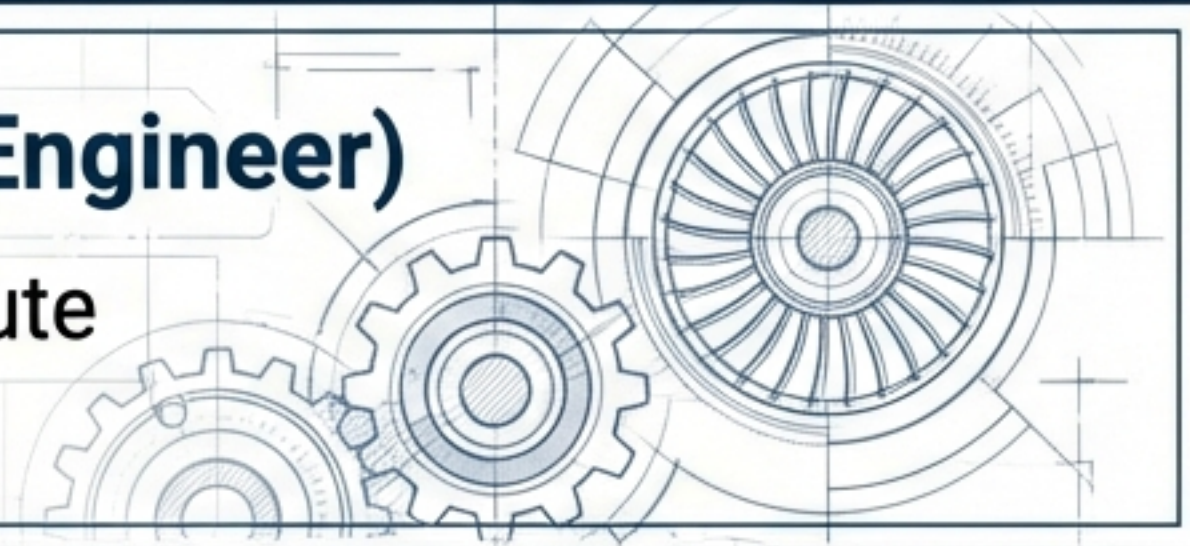

Dual Fuel (Project Manager)

Managed complex project timelines and deliverables in a high-stakes construction environment.

Zachry Nuclear Engineering (Mechanical Engineer)

Executed high-stakes engineering requiring absolute precision and safety compliance.

Translating nuclear-level rigor into product management execution.

Entrepreneurial Ventures & Projects

Project 1: TrackFlow

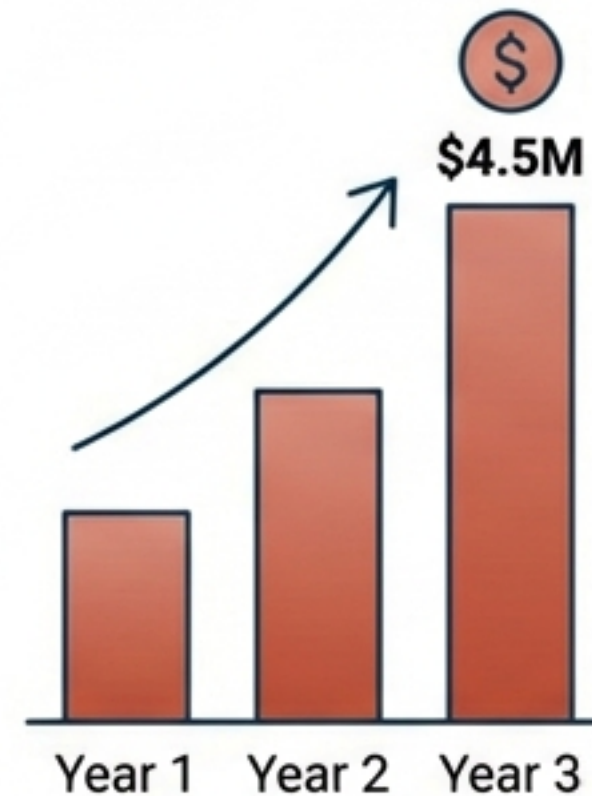

Privacy-First Chrome Extension

- Pivoted to **local-first architecture** for privacy.
- Reduced manual data entry by **70%**.

Project 2: SleepWave by Bose

Strategic Market Launch Plan

- Targeting **5% of \$2B** sleep-aid market.
- Forecast: **\$4.5M** revenue by Year 3.
- **15M+** impressions via \$500k marketing model.
