## SUMMARY

MBA Candidate and Product Analyst with 2 years of product experience and an engineering foundation. Conducted competitive analysis, created product roadmaps, and collaborated with engineering and design teams to bring features to market. API integrations, A/B testing, and feature instrumentation. Passionate about building, user-first products that scale.

## EXPERIENCE

**HapticNav** | New York, NY | **Operations Intern** | September 2025 – December 2025

- Accelerated 5 B2B partnership pipelines by 60% as measured by stage progression and engagement velocity, by leading outreach to Uber, Waymo, Apple, and Meta, managing 40+ CRM-tracked partner conversations, and supporting 12 executive-level strategy calls.
- Enabled 3 active pilot discussions as measured by stakeholder buy-in and GTM readiness, by designing 3 high-impact product one-pagers in Canva that articulated haptic navigation use cases across rideshare, airports, and large venue navigation for enterprise partners.

**Odynn** | New York, NY | **Product/Data Analyst Intern** | May 2025 – August 2025

- Increased booking flow reliability by 20% by executing QA testing across 50+ features over 3 release cycles, using Jira and Confluence to manage tickets and documentation in an Agile environment.
- Enhanced data integrity and feature tracking by closing 40+ instrumentation gaps and building Amplitude dashboards for 150+ user events, using SQL to validate event data across staging and prod environments.
- Enhanced product risk visibility by 15% by analyzing 25+ competing platforms and synthesizing Google Analytics and support data to surface recurring user complaints in issue investigation workflows.

**Rocket Mortgage** | Detroit, MI | **Digital Product Management Intern** | May 2024 – Dec 2024

- Improved account creation speed by 400% and verification accuracy by 30% by leading Plaid API integration into Rocket Mortgage, using Jira and Azure DevOps to coordinate Agile release cycles.
- Reduced banker escalations by 40% and elevated form completion by 25% by supporting integration of an AI-powered onboarding chatbot for the Rocket Mortgage mobile app, coordinating engineering architecture, UX design in Figma, and release timelines with the product team.
- Boosted user engagement by 20% by building side-by-side home comparison features using Figma and UAT testing in Jira; managed release dependencies in a Waterfall environment, earning the June 2024 Tech Demo Award.

**MegaPlants LLC** | **Kosha Botanica** | New York, NY | **Product Development Intern** | February 2024 – May 2024

- Prioritized 3 high potential tincture concepts for Kosha Botanica from 200+ candidates by analyzing Google Trends, Google Analytics data, and TikTok trend signals, improving product selection efficiency by 90%.
- Led development of 2 new wellness product lines by analyzing 300+ Amazon SKUs and customer reviews using Jungle Scout and Google Trends, supporting a 25% product line expansion and informing go-to-market decisions.

**Zachry Nuclear Engineering** | Stonington, CT | **Mechanical Engineer** | May 2021 – January 2023

## PROJECTS

**Tracktern (2025):** Built a Chrome extension that captures and stores job postings locally within the browser.

**CLIP Bike, Innovation Consulting Project (2025):** Assessed \$50B micromobility market and delivered 8 growth strategies for an early-stage hardware startup.

**SleepWave by Bose (2024):** Led GTM strategy for a concept sleep tech product, targeting 5% market share in the \$2B U.S. sleep aid space.

## EDUCATION

**Baruch College, Zicklin School of Business** | New York, NY | **MBA Candidate** | GPA: 4.00

**The City College of New York** | New York, NY | **Mechanical Engineering** | GPA: 3.83

## SKILLS

**Product Management:** Jira, Confluence, Asana, UAT, Agile/Scrum/Kanban, Figma, Azure DevOps, Lucid Chart, HTML/CSS.

**Analytics:** Amplitude, Tableau, SQL, Python, Power BI, Adobe Analytics, Excel VBA, Zendesk, Google Analytics, Jungle Scout.

**Certifications:** Bloomberg Market Concepts, Figma Learn, Notion Certified.
